## News Release

For Release: IMMEDIATELY  
Date: August 5, 2010

Contact: D. Stumpo  
Phone: 360-945-2150

### Board of Directors

Jesus Guerra, Chair  
Patrick Astredo, Vice Chair  
Rolando Cruz, VP/CFO  
Alan Fox, Secretary  
Tom Barrio  
Mike Bonacio  
Pamela L. Boswell  
Tommy Edwards  
Jannet Malig  
Ralph Merced  
Greg Newhouse  
Frank Scholl  
Gail Schwandner  
Steve Tomory

### Transit Members

Culver City Municipal Bus Lines  
Foothill Transit  
Gardena Municipal Bus Lines  
LACMTA  
Long Beach Transit  
Montebello Bus Lines  
Norwalk Transit  
OCTA  
OMNITRANS  
Santa Monica's Big Blue Bus  
SunLine Transit  
Torrance Transit System

### College Members

Cerritos College  
Chaffey College  
College of the Desert  
Cypress College  
El Camino College  
Golden West College  
LA Trade Tech College  
Long Beach City College  
Rio Hondo College  
San Diego Miramar College  
Santa Ana College  
Santa Monica College

### Affiliated Members

Advanced Transportation  
Technology & Energy  
Initiative (ATTEI)  
  
California State University  
Long Beach (CSULB)

## Clean Energy Commits to SCR TTC Sustaining Partner

**Los Angeles, CA** - The Southern California Transit Training Consortium (SCR TTC) is excited to announce that, as a result of the launch of its Private Industry/Public Agency Partnership program, Clean Energy Fuels Corp. (Nasdaq: CLNE) has committed and contributed as the consortium's very first 'Sustaining Partner.'

Clean Energy is North America's largest provider of natural gas for transportation with state-of-the-art private and public fueling stations strategically located nationwide. Clean Energy designs, builds, operates and maintains natural gas fueling stations that offer the latest in convenience, technology and safety. Although Clean Energy has a broad customer base, it has a high level of exposure and experience in the transit industry.

Clean Energy fuels nearly 5,000 natural gas buses daily. For transit fleet operators, Clean Energy's comprehensive fueling services include: compressed natural gas (CNG) and liquefied natural gas (LNG) fueling station design, construction and ongoing operations and maintenance, long-term fuel contracts and discounted fueling options, assistance with securing grant funding and incentives as well as vehicle and fueling station leasing or financing.

Clean Energy's vision extends beyond servicing the high-fuel-use requirements of fleet operators. As the leader in clean-air transportation, Clean Energy is committed to helping its customers access the measurable advantages of clean-fuel solutions while simultaneously protecting the environment.

Transit fleets are one of the major fleet segments that stand to benefit from clean, inexpensive, and domestically abundant natural gas as our nation shifts increasingly away from expensive imported oil. Natural gas costs 25% to 40% less than diesel fuel, and projections call for this favorable cost trend to extend well into the future.

The SCR TTC Board of Directors and its members are pleased to welcome Clean Energy aboard as our first 'Sustaining Partner.'

The SCR TTC is a coalition of over 27 transit operators, community colleges and other educational institutions in Southern California, joined together to develop industry driven, competency based curriculum that meets present and future technological needs of public transit systems. The SCR TTC has been designated as a 501c(3) organization, as well as a California Non-Profit Corporation.

For further information about the Consortium, please visit our website at [www.scrttc.com](http://www.scrttc.com).
